Shmuel Cohen, Full stack Developer

shmuel.cohen0@gmail.com | 058-7300626

Team player with Self-learning skills, quick technological understanding, leadership and management ability.

Education:

- Graduated from the web development course of GoCode College

Experience:

Dec 2022 - Now
- Lecturer high schools and schools about zionut and value morals at EL AMI association.

Nov 2020 - Jun 2021
- **Help desk** at internet Rimon (company) in the field of internet and networks.

Hands on experience:

- E-Commerce:
  - Click fashion – online clothes shop with login interface and admin management, in this project I used authentication and secure routing, the website design was created for me by a volunteer designer, I was in contact with the designer on a daily basis and experimented with **Figma platform**, for the product data I also had to experiment with the **Rapid API platform**, additionally I switched between a webpack of CRA to VITE for better performance.
  - **Technologies: HTML, CSS, JS, React, React-Router, Material UI, MongoDB, Node.js, Express.js, Mongoose.**

  - [Github repo](#)

- Memory Card Game:
  - My first project with HTML,CSS and **JavaScript Vanila**, during the course i get only a HTML&CSS file of this game and i need to turn on the game with JS Vanila, At first it sounded difficult because I had to understand code that I didn't write and try to understand how the creator of the game planned for it to work. **It's a small and simple project but I'm very proud of it**.
